ORGANISER	THE JAPAN FORUM (TJF) This workshop is organised with the cooperation of The Japan Foundation, Sydney, the Japanese Language Teachers Association of Victoria , and DEC NSW.

The Click Nippon website presents a variety of content related to Japan and designed to foster ideas and reflection about ourselves, about our cultures, and about the world at large. Through the site, users can encounter many different people and gain insights into what and how they think. Click Nippon hopes that its users will not only experience the pleasure of learning and thinking about Japan but also improve their awareness of other languages, cultures, and values different from their own, stimulating them to learn more, explore their own potential, and exchange ideas with others.
